INTRODUCTION

A Coffee App is a mobile application designed to make ordering coffee easier and faster for customers. Through the app, users can browse the menu, customize their drinks, place orders, and make payments anytime and anywhere.

Coffee Presentation

Learn More →

OBJECTIVE

A close-up photograph of a dark coffee cup filled with a latte. The surface of the coffee features a detailed, light-colored latte art pattern resembling a heart or floral design. The cup is set against a dark, slightly blurred background.

The objectives of this assignment are:

- To understand the role of bottom navigation in Android apps
- To implement bottom navigation using Kotlin and XML
- To manage screen navigation using Fragments
- To create a clean and user-friendly UI for DrinksOrderApp

Iced Latte \$4.50

Smooth espresso and cold milk.

Home ⌂ ☺+ 🛒 🙏

This screen shows the home page of the Borcelle Coffee app. It features a welcome message "Good Evening, Sonita!" with a location pin for "Sen Sok, PP". A large search bar is at the top. Below it is a "Daily Specials" section with a pink banner stating "20% off all Iced Coffees!". There's a "Explore Categories" section with icons for Coffee, Tea, Juice, and Smoothies. The "Featured Drinks" section displays an "Iced Latte" for \$4.50 with a description: "Smooth espresso and cold milk.". A bottom navigation bar includes icons for Home, Menu, Smile, Cart, and Profile.

Home ⌂ ☺+ 🛒 🙏

This screen shows the menu page of the Borcelle Coffee app. It has a search bar at the top and a "Categories" section with tabs for Cold Coffee, Hot Coffee, Matcha, and Smoc. Below are four cards for "Cappuccino" (1.5\$), "Espresso" (2.5\$), "Americano" (3.5\$), and "Macchiato" (3.5\$). Each card includes a small image of the drink, its name, price, and a shopping cart icon. A bottom navigation bar is present.
